

**Tijarix Inc**  
**Construction Equipment & Supplies**

**Acro Building Systems roofing brackets, guardrail systems, ladders, asphalt tools, spud bars, scraper bars and scaffold brackets**

Acro Building Systems is one of the fastest growing suppliers of roofing tools and equipment. They have become a leading manufacturer of fixed and adjustable roofing brackets, roofing guardrail systems, ladder equipment, asphalt tools, spud bars, scraper bars and scaffold brackets . Acro Building Systems high-quality safety products are known around the country and are used everyday for commercial and residential roofing jobs. They are dedicated to supplying customers with safe and efficient OSHA compliant products.

**Advanced Concrete Tools Weber Black Beauty & Silver Beauty Vibrating Concrete Portable Screed**

Advanced Concrete Tools manufactures the very popular Weber Black Beauty screed, the Silver Beauty portable Vibrating Wet concrete Screeds and other quality equipment to the concrete industry. Products include vibrating concrete screeds, portable hand screeds, gas powered core drills, and concrete bomb, a release agent for concrete to prevent concrete buildup on all types of concrete tools. These machines are perfect for concrete pad sizes up to 16 feet in width.

**AGL Laser Levels Rotary Levels and Transits**

In 1964 the founders of AGL Laser Levels developed and successfully used the first pipe laser and started the construction laser industry. From this beginning AGL Lasers has continued to develop and market a wide range of laser and machine control systems that encompasses a wide range of applications gravity flow pipelines, all phases of building construction, grading for site preparation, roads and agriculture land leveling plus controls for paving and reconstruction of streets. AGL has been focused from the beginning in supplying construction companies with precision laser levels.

**Airplaco Grout Pumps Mud Jacks for Pumping Grout**

Airplaco manufactures grout pumps, slabjack and mudjack pumps, shotcrete pumps, concrete pumps, mobile batch plants, gunite equipment, finishing tools, nozzles, hose and clamps, pool building equipment accessories and other construction equipment. With over 60 years of quality product design, manufacturing, and service experience, Airplaco accommodates customer needs worldwide. Airplaco equipment is manufactured at the Cincinnati, Ohio facility.

**Tijarix Inc**  
**Construction Equipment & Supplies**

**All Seasons Equipment Roofing Tar Draw Kettle or Pump Kettle in Single & Double Burners**

All Seasons Equipment is a manufacturer of roofing & Construction Equipment. They have been successfully manufacturing roofing and construction equipment since 1975. All Seasons is proud of their excellent reputation when it comes to well engineered, reliable built machinery, offering top quality and the performance you come to expect. They are most known for their well designed roofing tar kettles. Offered in either a pumper or draw kettle style, there are many models to choose from. Even oil jacketed tar kettles are available.

**American Brick Saw Americutter Brick & Block Saws**

The American Brick Saw Company manufactures superior bricks and block saws for the brick paving and masonry contractors. Combining existing product knowledge and installation experience, the Americutter block saw line was created. The Ameri cutter masonry saw is the most efficient and durable block and brick cutter in the industry. They are complimented by a complete line of accessory products that include complete saw stands, utility carts and a diamond blade.

**Americ Corporation Portable Plastic Air Ventilators in Electric or 12 Volt DC**

The Americ ventilator corporation was established in 1980 as a wholly owned subsidiary of a large equipment rental company in Japan. Americ has been sourcing air ventilators in both the American and European markets. Some of the equipment sourced includes: Aerial Work Platforms, Industrial Vacuum Cleaners, Flood light fixtures, Concrete Plainer and Railroad maintenance equipment. They initiated manufacturing operations for the VAF series line of portable ventilators. It was during this time that AMERIC launched the first Plastic Portable Air Ventilator. It was AMERIC's innovative design that reduced maintenance and service costs when compared to the metal housing product, which could be easily damaged.

**Amida Industries**

Amida Industries offers a complete line of both light towers and highway safety arrow boards and message boards. Made in the USA, Amida is a name you can trust for both quality and durability.

**Tijarix Inc**  
**Construction Equipment & Supplies**

**Arrow Master Concrete Truss Screeds, Power Trowels, Plate Compactors**

Arrow Master is a manufacturer of direct drive concrete power trowels, concrete truss screeds and plate compactors. Made in the USA, these construction tools are some of the best in the industry. Arrow Master's proven gear driven technology on their power trowel ensures long machine life and durability. With concrete truss screeds spans up to 80 feet long, there are many options to choose from. Keep in mind that the special design of the compactor plate allows for quick and easy movement over soil and brick pavers.

**Bartell Concrete Scarifier Power Trowel Plate Compactors**

Bartell is a long time manufacturer of concrete power trowels, cement scarifiers and plate compactors. They offer a wide selection of these construction tools in many different sizes. Bartell trowels are available from 30 to 46 inch in size with Honda engines. They even make a full line of ride on power trowels to choose from.

**BC Rebar Machines**

BC Rebar Machines is a worldwide company that offer some of the finest rebar equipment available on the market today. Factory direct, BC rebar tools offer a complete line of both rebar cutters and electric rebar benders.

**Belle Group Cement Mixer, Concrete Mixer, Plate Compactor**

Belle Group has been providing a wide range of construction equipment for the private and professional user since the 1950s. Belle has been developing and manufacturing tough, durable construction equipment like cement mixers, paver splitters, plate compactors and tampers for the DIY and professional builder, making it the first choice for utilities, local authorities, construction companies and plant hire businesses. The Belle Group is a Virginia based company in the US. Their machines are made of the highest quality under the strictest test. Belle plate compactors are available with Honda engines. Their plate widths span up to 24 inches in diameter. They have designed a light weight easy to transport paver splitter. This unit can easily split 3 inch pavers giving you that rough natural look most contractors look for. A Belle concrete mixer is a very popular machine. Available in either an electric cement mixer or gas cement mixer, these mixers are built contractor tough. Belle even has a line of vibratory rollers. Double drum rollers are strong machines with a tough job. Asphalt will come out smooth and properly finished each time you use on the there machines.

**Tijarix Inc**  
**Construction Equipment & Supplies**

**Benner Nawman Rebar Cutter and Rebar Bender**

Benner Nawman BN Tools is a rebar tool manufacturer you know and trust. Benner Nawman makes rebar cutters, rebar benders and rebar cutter bender combination machines. They make high quality tools at a great price. A rebar cutter is a machine the uses two hardened steel jaw sets to shear a piece of rebar in half. By the jaws squeezing together it snaps the rebar apart in seconds. A rebar bender is used with a hydraulic pump that pushes the rebar around a cylindrical pivot to create a rolled bend in the bar. Benner Nawman has been in the industry from many years. A rebar bender combination machine is the best of both worlds having both machines in one. BN Tools makes both portable and non portable rebar tools.

**Bil-Jax Scaffolding, Drywall Carts and Lifts & Scaffold**

The Bil-Jax scaffolding company has grown to become North America's No. 1 manufacturer of scaffolding, drywall carts lifts, and related products. Today, the Biljx line of over 6000 different finished products is the most comprehensive in the industry. Bil-Jax is proud to have over 200 employees working in more than 325,000 square feet of manufacturing space. They continue to be the leading supplier of engineered drywall lifts, jacks, carts and related products to the construction industry. You get more than strong, durable products; you also get superior value in the form of safety training, engineering expertise and great customer service.

**BlockShear Block Splitter Paver Brick Splitting**

Blockshear is a manufacturer of portable hydraulic splitting tools for splitting masonry materials like blocks, brick pavers and even cast stone. Their line of block splitters is designed for the masonry and landscaping trades that provide on site precise split face cuts of masonry blocks and brick. Packed with power, it only takes a few seconds to get that perfect natural split of your paver or retaining wall block.

**Bon Tool Co. Paver Block Brick Splitter Cutters**

Bon Tool Co. is a manufacturer of professional grade paver brick splitters and block splitters for the construction and landscaping industry. They were established in 1958. Bon Tool Co. is a leader in the trowel trades by providing high quality, long-lasting tools at great prices. You can find a full selection of small brick paver cutters all the way up to the large retaining block wall splitters in their selection of products.

**Tijarix Inc**  
**Construction Equipment & Supplies**

**Buffalo Tools Tile Saws Scaffolding and Drywall Carts**

At Buffalo Tools the two founders of the company started the business operation in the late 1950's and are considered "Pioneers" of the import industry. They were very aggressive in the selection of items and their commitment to purchase large quantities in order to offer the lowest prices. In the last decade, BUFFALO TOOLS made many changes to its product mix, upgraded the quality of its products and improved the look of its brand name packaging that is currently featured. Throughout the years, BUFFALO TOOL has adjusted to the changes that have taken place in its industry. In doing so, BUFFALO TOOLS has been able to supply to all of the major co-op, a wide variety of retailers, wholesalers and also automotive & industrial accounts.

**Bunyan Striker Concrete Roller Screed**

Bunyan Strikers concrete roller screeds use friction to cut grade, an alternative to regular vibratory screeds. Strikers are used in two functions. As a placement tool, cut grade during the delivery. The spinning tube strikes against the aggregate, causing it to peel forward into the delivery area. This brings excess concrete forward and provides the delivery team with a visual reference for elevation. The spinning tube carries itself back to allow more delivery. As a concrete screed, the final pass cuts a small roll of material over the surface to the final elevation. If it's not perfect, let the Striker run back for another cut.

**BW Manufacturing Concrete Scarifiers, Shot Blasters, Walk Behind and Ride On**

Since 1996 B W Manufacturing, Inc. has been producing top-quality surface preparation equipment. They offer a very large range of concrete grinding, and shot blasting equipment and service that meets with today's advanced technology, along with our commitment to quality and customer satisfaction. They offer a broad line of surface preparation equipment and parts to meet customer needs.

**Canoga Concrete Cement Mixers**

Canoga concrete mixers are made with precision and the highest quality. Some might say over engineered, the all steel construction of a Canoga cement mixer cannot be beat. Many different styles are available both in portable and tow style mixers.

**Tijarix Inc**  
**Construction Equipment & Supplies**

**Cantherm Forced Air Heaters**

Cantherm brand forced air heaters are some of the best in the industry. Packed with power, these oil and propane fired heaters are the ones to have at your job site. These construction heaters can be easily vented out when cleaner burning heat is needed.

**Checkpoint laser levels and Hand Level**

Checkpoint laser levels by Precision Designed Products are a great tool to have with you on many job sites. Their style of ruggedly built portable hand levels and laser levels are the best in the industry. Check Point lasers offer a full line of models to choose from including the 880, Ultra, and Mega Mag levels.

**ChemGrout Grout Pumps for Grouting and Pumping Grouts of all Types**

The ChemGrout grout pump company started in 1963 as grouting contractors providing cement and chemical grouting field services. This field experience enabled Chem Grout to understand the needs of contractors and recommend the proper equipment for your applications. ChemGrout grouting pumps was originally designed for its own use. That is why the units are engineered and constructed for rugged heavy field use, portability and very low maintenance. The concepts of grout mixer-pump balance, user-friendly operation and easy maintenance are emphasized in the design of the grout systems. Each Chem Grout pump unit is designed for perfection of grout delivery. Complete grouting units are always designed to allow the user continuous, non-stop grouting capability at published pumping rates for the unit. That is, the mixing tank is large and fast enough, and the storage hopper has a large enough capacity to keep the pump fed without interruption.

**Cimline Pavement Routers Crack Saw and Diaphragm Sprayers**

Cimline is the manufacturer to think of when it comes to a full line of pavement crack routers, crack saws, diaphragm power sprayers and even asphalt equipment of all types. Based out of Arizona, Cimline Manufacturing has been making a large variety of road construction tools for many years.

**Tijarix Inc**  
**Construction Equipment & Supplies**

**Cleform Gilson Concrete Cement Mixers and Mortar Mixer**

Cleform Gilson Concrete and Mortar Mixers have been making some of the finest mixers in the industry for over 20 years now. With their all steel construction design, you are sure to have years and years of trouble free service from a Gilson brand mixer. The manufacturer cement mixers and a mortar mixer in both portable and tow style designs for all types of users.

**Con Mat Supply Concrete Screed and Soil Plate Compactor**

Con-Mat Supply is a manufacturer that is committed to developing the most innovative concrete screed and soil compactor construction products on the market. The ED 110 Comp Screed is a combination concrete screeding machine and vibratory plate compactor all in one machine. The Con Mat Supply machine was designed to give the concrete contractor more versatility from one machine; it saves both time and money on the job site.

**Contie Manufacturing Rebar Tying Rebar Speed Clips to Tie Rebar's**

Contie Manufacturing knows that tie wire can break from being tied too tight, or fail to hold from being tied too loose. There is a fine line between too tight or too loose. Workers have to be trained to tie rebar with just the right amount of tension. Contie's goal is to provide a system for tying rebar that is fast, secure, and efficient every time a connection is made. Con-Tie, Inc. has found the solution that will revolutionize the rebar industry. The Speed-Clip rebar tie system will help alleviate most common problems associated with traditional wire tying. A worker need only bend down for a second or two when making the connection. There are no tools needed, and the joint is secure. The CON-TIE Speed-Clip will become the concrete industry's standard for connecting rebar. We know you will like how fast and easy it will be tying your rebar!

**Core Bore Diamond Core Bits and Drills**

Core Bore core drills and core bits are the name to know and trust for all of your concrete drilling needs. These tools are field tested to be the best in the industry when it comes to core drilling.

**Tijarix Inc**  
**Construction Equipment & Supplies**

**Core Cut Diamond Products Concrete Saws & Diamond Blades**

Core Cut by Diamond Products is the manufacturer of quality diamond blades and concrete saws in the USA. Based out of Ohio, Core Cut saws are the top of the line concrete saw found on most road sawing job throughout the country. Available in gas, electric or diesel, core cut saws are the name to know and trust. You can always count on their diamond blades as well.

**Crown Construction Equipment Mortar mixer, Cement Mixer, Concrete Screed**

Crown Construction Equipment manufacture is a full line of contractor Mortar mixers, Concrete Mixers, Concrete Screeds, and Concrete Buggies. Crown also makes Mobile Glycol Heaters designed for quick ground thawing and concrete curing applications on your jobsite. Crown started with a simple philosophy to build quality products at a competitive price. Crown has grown by leaps and bounds by providing superior customer support, introducing new product lines and always working to improve their existing product lines. A Crown concrete mixer comes completely assembled with a 2 year warranty on parts and labor, not to mention a lifetime on the mixer bearings. You can find that our selection of Crown mortar mixers range in sizes from 4 cubic feet up to a large hydraulic mortar mixer in the 16 cubic foot size drum. Crown cement mixers and concrete mixers are built to the finest standards in the industry. Concrete buggies are put through the toughest conditions. These buggy's carry large loads of concrete and other materials around your site getting your job done faster.

**CST Berger Laser Level, Transits, and Plam Lasers**

CST Berger laser levels are the world's leading manufacturer of quality surveying, construction equipment and supplies. Vertically integrated with more than 300 employees in five plants worldwide, CST Berger offers you a diverse range of over 1,000 products including, all manufactured and marketed to provide the highest quality at the most competitive prices possible on their large selection of laser level products and tools. CST Berger is committed to bringing you superior products and service on all their products.

**Tijarix Inc**  
**Construction Equipment & Supplies**

**Curb Appeal Landscape Concrete Curbing Machine**

Curb Appeal Landscape curbing machines are one of the most popular in the concrete curbing industry. They offer a complete line of concrete curb accessories and tools to choose from and their design of cement curb machine is packed with great features for your next project.

**Curb-Tec Industrial Concrete Curbing Machines**

At Curb-Tec Industrial Curbing Machines they know that over the years people have experienced problems with small curb machines. Now you can solve those problems with the best small extrusion type curb machine in the world from Curb-Tec Manufacturing. Curb Machines, Manufactured for large concrete curbing applications. Introducing the all new Curb-Tec Inc CT-3000, a small extrusion type curb machine that will revolutionize the curbing industry. The CT-3000 curb machine has features no other small machine can compare with. This machine can pour a flawless 16 inch radius as well as fill a trench and form the curb at the same time!

**D Cut Products Tile Saws and Brick Paver Block Saws**

D Cut Products is a Chicago based manufacturer that is breaking that mold. With this new century, D Cut has taken on the challenge of creating new and innovative tile saws and block saws, which will accomplish the tasks necessary, faster and easier. D Cut's design team took a look at what was being offered in the industry and declared, they can do better. This coming year, D Cut will reveal incredible new tools and equipment. D Cut Products has made it their mission to create equipment to meet the needs of both the home and construction worker, making their job easier and more efficient. Their goal is to create new innovative professional tile wet saws that require less set up and are easier to maintain.

**Dee Concrete Steel Concrete Curb Forms and Steel Stakes**

Dee Concrete forms and accessories produces high quality engineered, steel long-lasting, concrete flatwork forms, curb and gutter forms, curb forms, and many custom steel concrete forms. Since 1956 Dee Concrete has been expanding their line of concrete and curb forms to cover all aspects of concrete curb forming.

**Tijarix Inc**  
**Construction Equipment & Supplies**

**Desco Manufacturing Edge Grinders, Concrete Grinding and Scarifiers**

Desco Manufacturing takes pride in manufacturing the highest quality surface preparation grinding equipment on the market today. Desco tools are designed to be tough while providing superior performance and maximum productivity. Prior to shipment, all Desco Manufacturing products will have undergone numerous quality check points insuring the product integrity and performance their customers have grown to expect. Some of their most recent developments include the Desco Crack Tracker with its patent pending Crack Chaser. This latest development provides a unique way of cleaning cracks and was voted one of the Top Ten Products of the Year by Concrete Repair Digest.

**Diamond Tech Laser Band Saw Models 7000 & 5000 for Tile**

The Diamond Tech manufacturing company is a leader in the tile tool industry for over twenty five years and has designed their diamond laser band saws specifically for the needs of specialty tile installers as well as glass and craft work. The Diamond Tech DL5000 and DL7000 Tile and diamond stone band saws are a one of a kind tile saw that is perfect for those special cut that need to be made. There are no other diamond band saws like these on the market. With the DL5000 tile saw you can create cuts only possible before on a \$100,000 Waterjet. These band saws provide tight and complex radius cuts, (as tight as 1/2 inch radius) and effectively cuts all types of stone, porcelain, glass and ceramic tile up to 3/4 inch thick.

For fabricators and installers looking for a big saw for big jobs, the DL7000 is their diamond saw of choice. Designed for the shop and job site setting, this wet band saw slices through marble, granite and tile up to 1 1/2 inch thick.

**Diteq Concrete Saws Core Drills Diamond Blades & Core Bits**

The Diteq concrete saw and diamond Blade Corporation is a manufacturer of the high quality diamond tools and equipment. Diteq's business philosophy is to provide you with the highest quality core drills and concrete saw machines at everyday low prices. You will find performance and value that you can drop straight to your bottom line with confidence. Beyond outstanding quality you will notice one more thing about dealing with DITEQ that they are the ones to think of for all you concrete tool and equipment needs.

**Tijarix Inc**  
**Construction Equipment & Supplies**

**DoorJak Door Lift Installation Tool for Lifting Doors**

DoorJak is the premier line of door installation cart in the USA. They manufacture and design 2 different types of door lifters for both light and heavy applications. These door carts are BIG money savers basically eliminating the need for additional labor resources on the job site. DoorJak is the name to know and the brand to trust.

**Dual Manufacturing Manual Heavy Duty Rebar Cutter Benders**

Introducing the new heavy duty Dual rebars cutter & bender, a hand tool that is manufactured in two very easy to operate sizes. This tool was invented and designed by a contractor who was tired of running out of material due to shortages, poor fabrications and many other things that happen on the job site. With the Dual brand rebar cutter and rebar bender, there is no need to put off that job for a day or even over the weekend when it could already be poured and start curing. Both models are capable of bending 90 degree or more angles, and both tools are able to be used as even a cable cutter by simply replacing the rebar blade with the cable blades. Cable blades are available upon request. The 345-R and the 1056-R have been said by contractors to have lasted for twenty years with only the replacement of their low cost replacement cutter blades. They are simple to operate, easily portable, and very durable. They are also the most economical, one use, manual rebar cutter benders that will save you money!

**Dynapac Tamper Rammer, Roller, and Vibratory Plate Compactor**

Dynapac compaction equipment offers planers and a full range of pavers, vibratory rollers and static rollers, trench rollers and duplex rollers, vibratory plates, rammers and concrete equipment or all types. They basically cover the entire compaction and paving field from top to bottom with the customers needs in mind. Whether you are backfilling a trench, building a new highway, resurfacing a street or laying a new bridge deck, they can help you get to the bottom of things by ensuring that you use the very best equipment on top.

**Tijarix Inc**  
**Construction Equipment & Supplies**

**EDCO Inc Concrete Floor Grinder Scarifier Scabblers Edge Grinders  
& Concrete Saws**

EDCO Inc offers a full line of concrete grinding and surface preparation equipment for every step of your cement resurfacing jobs. Easily take up linoleum, ceramic, carpet and vinyl tile. With a concrete floor grinder you can clean the surface by removing carpet backing and coatings such as tile adhesives or mastics, epoxies, urethanes and thermo plastic paints from concrete, asphalt, masonry or steel. Remove deteriorated and damaged concrete to create a desirable surface texture. EDCO builds high quality grinding and saw products that require little maintenance and save you time and money. Your satisfaction is their sole objective. EDCO equipment is built in the USA and has provided contractors with solutions to resurfacing problems since 1959.

**Edgemaster Landscape Concrete Curb Machine**

**Karl Dahm Tile cutters rail tile wet saws and grout tools**

Karl Dahm is a maker of quality tile cutters, rail saws and grout clean up tools. They even make specialty tile cutters too hard to make radius cuts on tile. Karl Dahm designs rail saw up to 60 inches in length. Their large selection of grout clean up tools and sponges makes tile jobs fast and easy. You can see the full selection of Karl Dahm grout clean up tools and tile cutters here. We now offer both tile saws and rail saws by Karl Dahm.

**Tijarix Inc**  
**Construction Equipment & Supplies**

**Kodi Klip Rebar Tie Clips**

The Kodi Klip is a new and innovative way to connect and clip together rebar fast and effectively. Made from very hard plastic, the Kodi Klip is an easy way to install and connect rebar together.

**Kor-It Core Drills for Concrete Core Drilling**

The Kor-It concrete core drill company was established in 1957. KOR-IT Inc. has maintained its status as an industry leader in the concrete cutting field. With the gasoline powered K-401 and versatile K-102 as its foundation, KOR-IT has developed, in recent years, a product line of bits, saw blades, and more than 30 core drill machine models and accessories. KOR-IT owes this success to meeting customers' needs and offering customer satisfaction. It's not unusual to find a seasoned customer still using the K-401 he purchased 35 years ago. Today KOR-IT core drilling products are used worldwide. In addition to meeting satisfaction needs, KOR-IT Inc. also meets unique drilling requirements. If you don't see it, but need it, they can build it.

**Kraft Tools Brick Paver Splitters and Rebar Benders**

Kraft Tools carries quality brick splitting tools and rebar benders. Available in many different sizes, we offer a full selection of Kraft brick paver splitters to pick from. We even feature a splitter for retaining wall blocks too.

**KR Kenrich Grout Pumps for Door Jams and Voids**

KR Kenrich grout pumps are the best portable style ones in the industry. Based on diaphragm pump technology, they are both low cost and very powerful. Kenrich offers manual and pneumatic powered grout pumps. Suggested hose length is up to 20 feet long and maxing out at 10 foot height. Grout pumps by KR Kenrich are designed for filling small voids in concrete or in door jams. They manufacture diaphragm grout pumps that affordable, but packed with power for your next grouting job.

**KRMC Concrete Scarifiers and Scarifier Cutters**

The KRMC Manufacturing Company began as a grinding wheel dresser and carbide cutter manufacturer, with a line of tools for restoring a grinding wheel to its original condition. In the ensuing years, we were actually one of the pioneers in the development and production of carbide and steel scarifier cutters, the original surface preparation tool. The quality of their products and the dependability of their people have enabled them to grow significantly.

**Tijarix Inc**  
**Construction Equipment & Supplies**

**LAB Brewpro Products Hot Air Lances and Tools**

Brewpro Products now offers the ultimate tool for crack preparation using hot compressed air. The LAB Hot Air Lance uses compressed air and propane gas to provide flame free hot air for the drying and cleaning of concrete and pavement joints or cracks before crack sealing. Adjustable operating temperatures range from 600 to 3000 degrees, the hot air lance is ideal for the removal of moisture that might be present in the depths of the crack and stubborn debris that is embedded in the walls of the crack. There are 3 models are available to meet your requirements.

**LB White Tent Heater and Construction Heater**

L.B. White is the name to think of when looking for a propane, natural gas or kerosene heater. LB White makes a full line of tent heaters. These tent heaters are the one to have when trying to heat a large event tent in some of the worst weather conditions. The LB heater is set up out side the tent and a small air duct is simply put underneath the flap of the tent to blow the hot air in. Thermostats are available for most LB White heaters to better control air temperatures and save on fuel. Their pig and swine heating units are very popular. Perfect for mounting in a bar or agricultural center, these thermostatically controlled units will keep farm animals warm on those cold days and nights. Construction torpedo heaters by LB white blow forced air in the direction where it is needed. Available in propane or natural gas, these heaters are portable and easy to use and maintain.

**Leica Geosystems Laser Distance Meters**

The Leica Geosystems Laser distance meters have close to 200 years of pioneering solutions to measure the world. The new Proline PTC drill bit is the right solution for your next tile job. It will drill through porcelain tiles as well as a wide range of other hard to penetrate materials like granite and even glass. The PTC drill bits are available in two size ranges for securing fasteners or creating pipe holes. These bits are a must have for the tile installer!

**Tijarix Inc**  
**Construction Equipment & Supplies**

**Pulse-Bac Dust Recovery Vacuum for Concrete Grinders**

Pulsebac dust recovery vacuums on the one to use with your concrete floor grinder or scarifier. Don't be fooled when purchasing dust collectors for your surface preparation equipment, a two inch hose can fit them all, but not all are alike. Manufactures of surface preparation equipment build innovative surfacing equipment but miss the mark when it comes to dust collection. Truth be told, they most likely don't build that at all, but purchase their dust collection equipment from a manufacture overseas using old vacuum technology. The vacuum is an integral part of any dust critical application and if it clogs, the job stops. Do not endure dust in the air while working, downtime to change or clean filters, high filter replacement cost, high maintenance cost and lost production time, just get a Pulse-Bac. Using only vacuum the Pulse-Bac's unique filtration system provides continuous suction by flushing clear one of three filters every five seconds while you work. Increase production and keep your job on schedule with Pulse-Bac technology.

**QEP Tile Saw and Ceramic Tile Cutter**

The Q.E.P. saw company was founded in 1979, is a leading manufacturer of a broad line of flooring tools like tile saws and tile cutters for the home improvement and professional installer markets. QEP markets approximately 3,000 products used primarily for surface preparation and installation of ceramic tile, carpet and vinyl. QEP is always on the cutting edge of innovation and their brand name can be found on millions of flooring tools sold worldwide. Q.E.P. was the first to introduce the twin-rail ceramic tile cutter to the United States, and has pioneered many of today's most popular ceramic tools.
